PDF layout templates

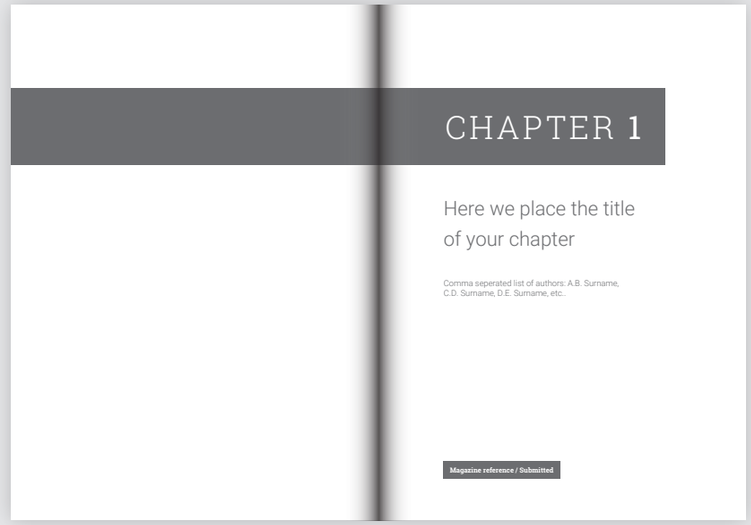

In this document you'll find the templates with the different layout elements that can be chosen for a PDF layout. In our online tool you select the template of your choice and decide which elements you want to add.

Due to a difference in font and style it is not possible to combine elements from different templates.

Layout elements

- *Headers and page numbers*: a single line of text at the top of every left and right page, in our online tool you are able to fill in the text for these headers.
- *Tabs*: the number of your chapter on the side of every right page.
- *Chapter pages*: an introductory spread (left and right page) to each chapter, part and your appendices.
